

10 craies

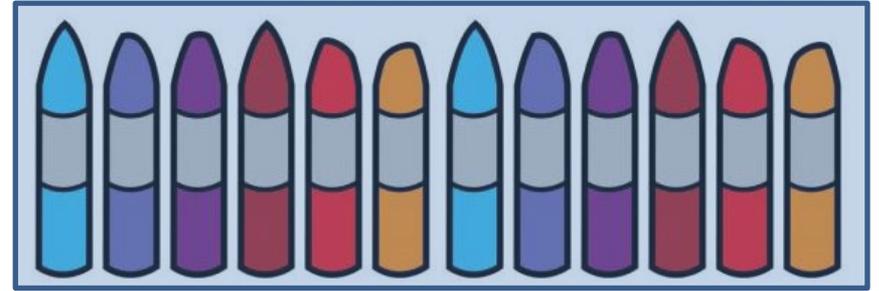

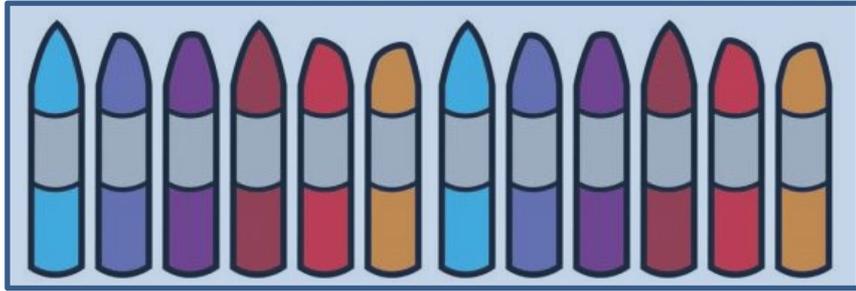

ou

1 paquet de 10 craies

1 x 10

1 dizaine

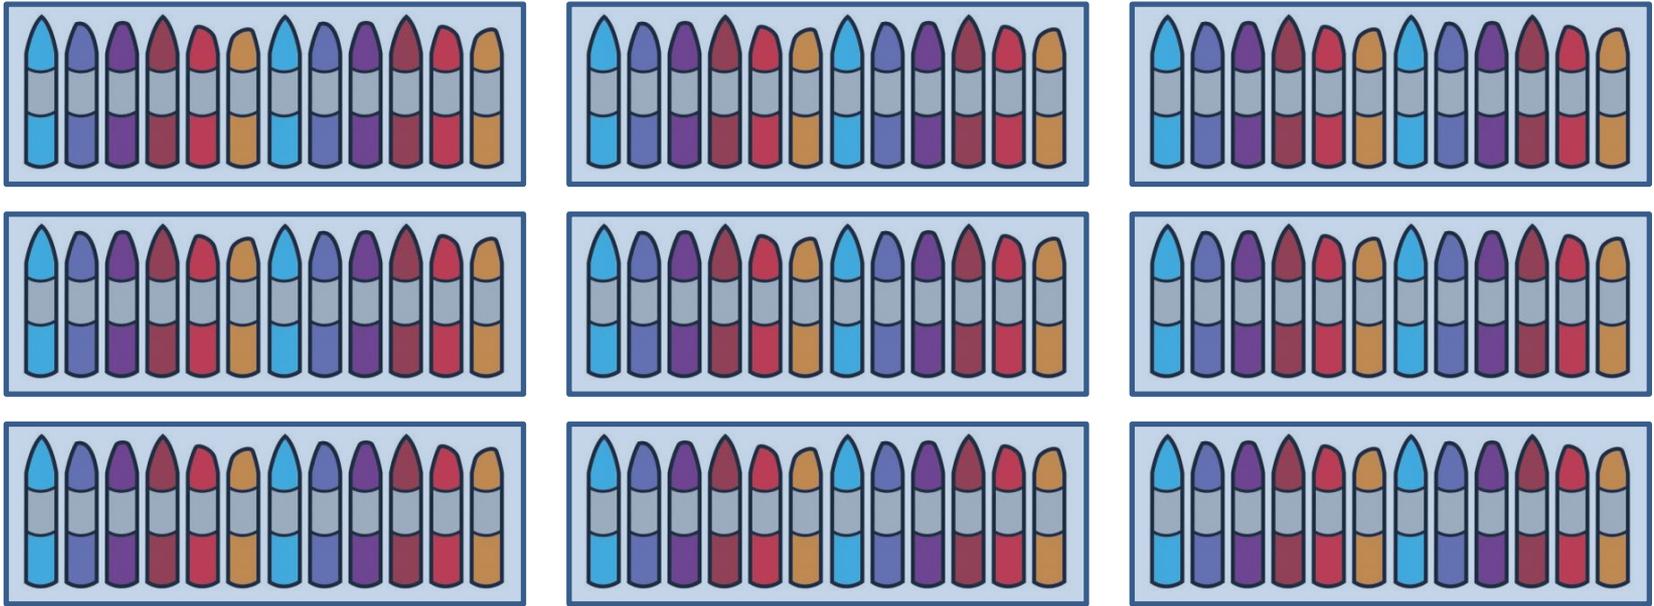

2 paquets de 10 craies

$$2 \times 10$$

2 dizaines

} = 20

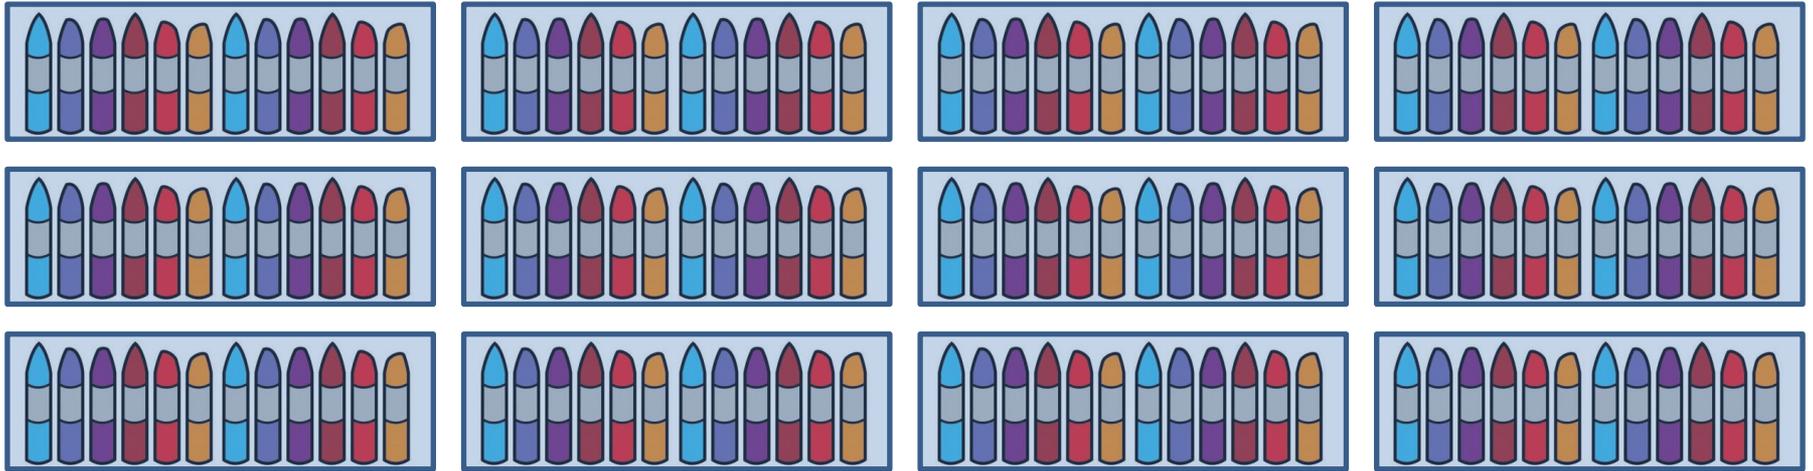

9 paquets de 10 craies

$$9 \times 10$$

9 dizaines

} = 90

12 paquets de 10 craies

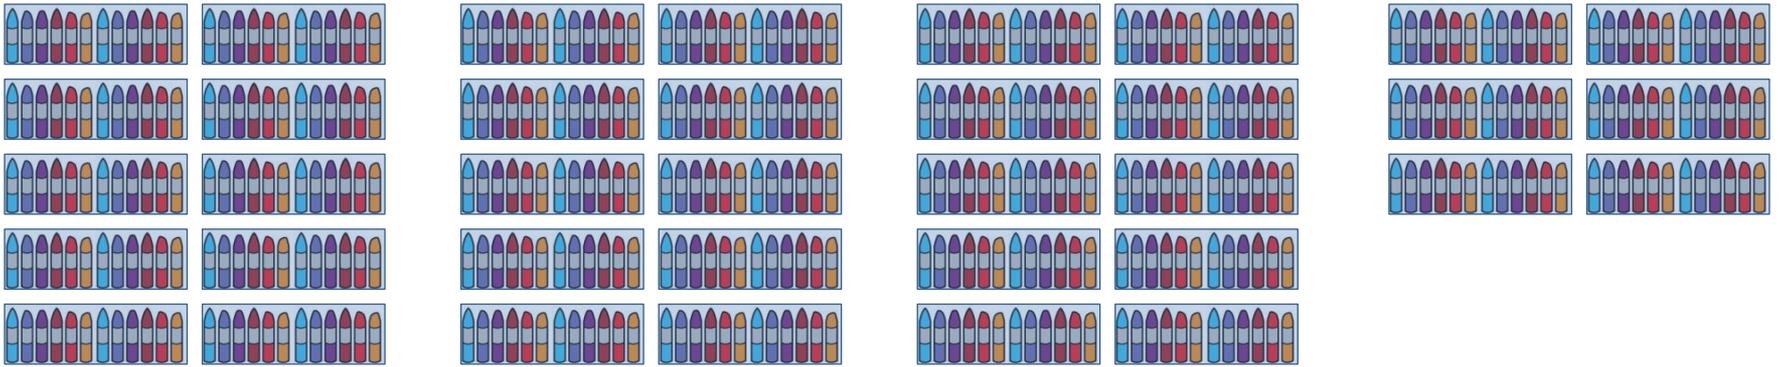

$$12 \times 10$$

12 dizaines

} = 120

**Multiplier par dix**  
c'est comme lire  
**le nombre de dizaines**  
et trouver  
**le nombre qui correspond**

**exemples...**

36 paquets de 10 craies

$$36 \times 10$$

c'est 36 dizaines

$$= 360$$

donc 3 centaines et 6 dizaines

# À toi de jouer !

Prends ton ardoise,  
écris la multiplication  
et trouve  
le résultat

Pour chaque page, tu trouveras la  
correction sur la page d'après.

## Pour t'aider :

..... paquets de 10 craies

..... x 10

..... dizaines

= ..... 0

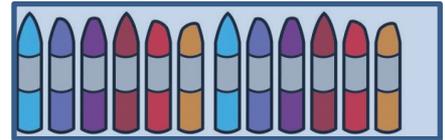

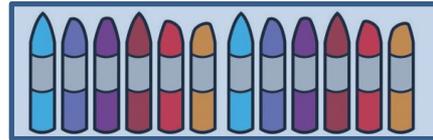

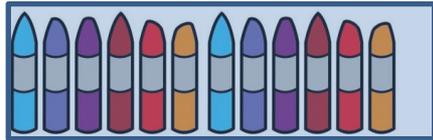

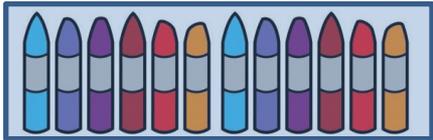

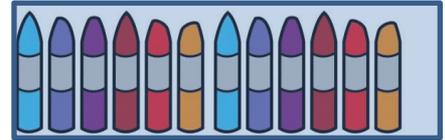

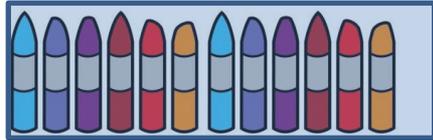

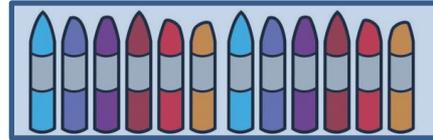

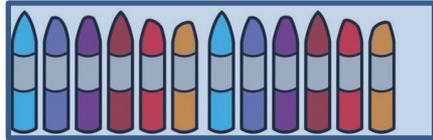

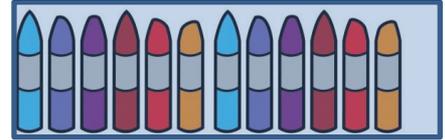

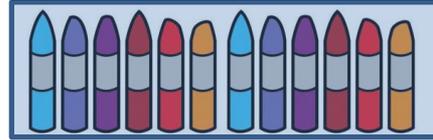

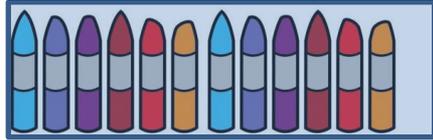

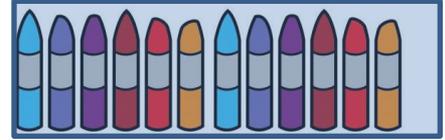

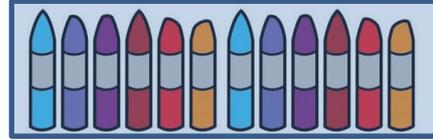

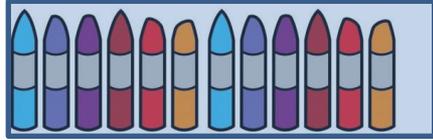

14 paquets de 10 craies

$$14 \times 10$$

14 dizaines

$$= 140$$

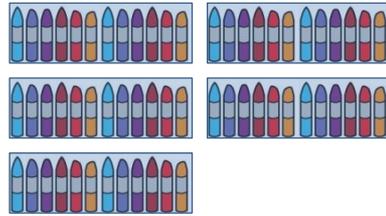

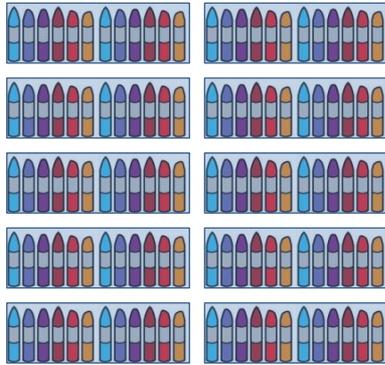

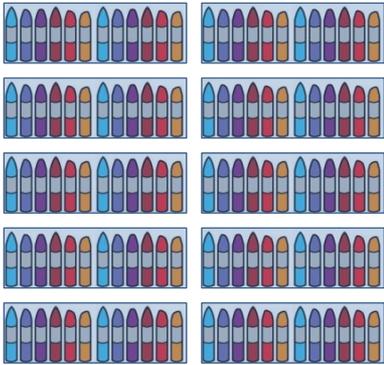

20 paquets de 10 craies

$$20 \times 10$$

20 dizaines

$$= 200$$

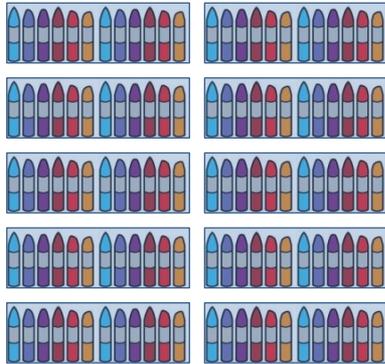

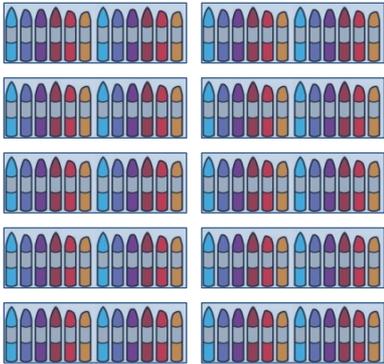

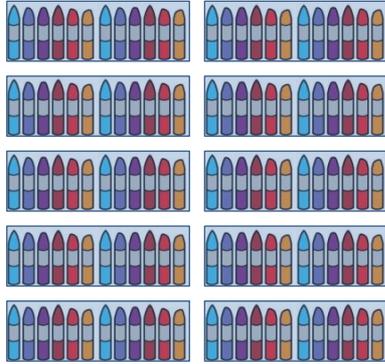

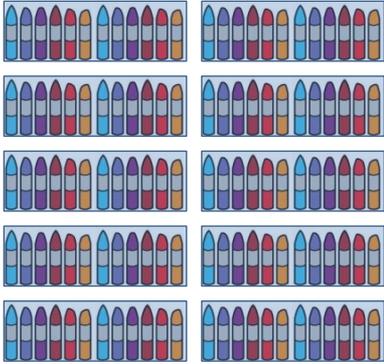

25 paquets de 10 craies

$$25 \times 10$$

25 dizaines

$$= 250$$

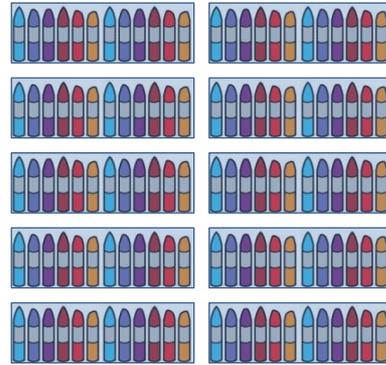

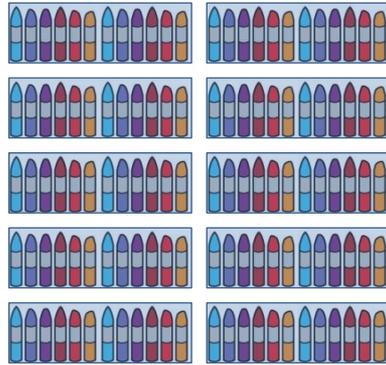

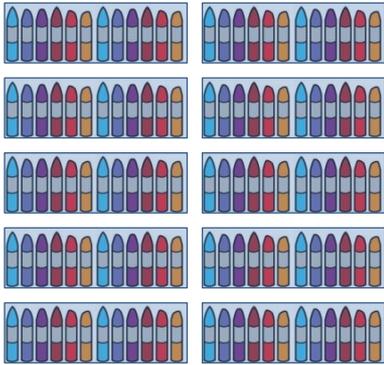

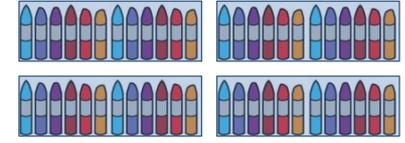

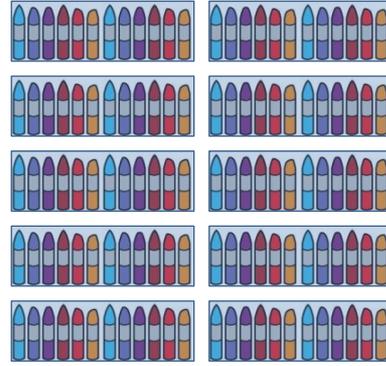

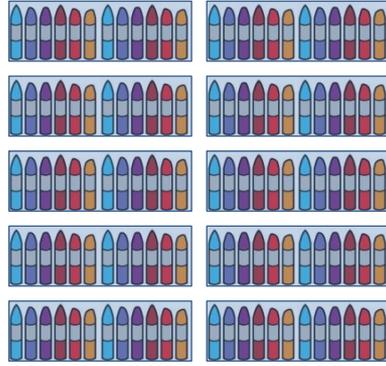

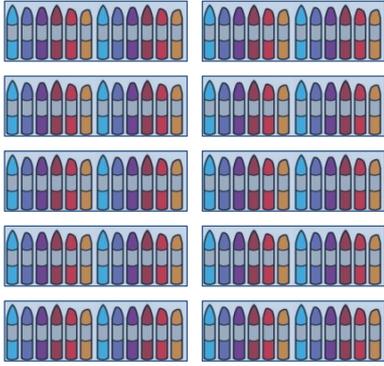

41 paquets de 10 craies

$$41 \times 10$$

41 dizaines

$$= 410$$

64 paquets de 10 craies

$$64 \times 10$$

64 dizaines

$$= 640$$
